

Thank you for your support!

The workers laid off from Loman Warehouse, which used to supply this Save-On store with your groceries, want to thank you for your support as we fight to save our jobs.

We now ask that you please show your support for the people who work in this Save-On-Foods store.

The people who work in this store are now being threatened by the same forces that resulted in 250 Loman warehouse employees losing their jobs.

What happened to the Loman Warehouse employees could happen to the people who work inside this store.

We ask that you please show your support for the people working in the store, the people working hard to provide you with good service and continue to make this company a success.

Thank you!
